# Slitter rewinders by FLEXOR<sup>®</sup>

innovators in rewinding and die cutting

### Flexor 400IS:

The Flexor 400IS is the perfect fully integrated 100% inspection machine. The 400IS machine allows the operator to fully inspect the pre printed web. The machine offers the flexibility and high performance needed for customers demanding highest quality control and accurate slitting and rewinding. With the integrated doctor table and a separate waste rewind the machine features everything you need from an inspection slitter rewriter. High speed, low running costs and a fully integrated 100% camera solution providing converters with a total package.

### MORE STANDARD FEATURES
